ADD PATIENT **FIND PATIENT**

WORKLIST < 22 Nov 2024 - 22 Nov 2024 >

NO WORKLIST ITEMS MY RECENTLY VIEWED (5) My Worklist ▾

Patient	Pathway
<i>i</i> NOVEMBER, Gill	Difficult Airway Registry
<i>i</i> MATTHEWS, Ian	Difficult Airway Registry
<i>i</i> JOHNSTONE, Craig	Difficult Airway Registry
<i>i</i> DART0000006, Anonymous	Difficult Airway Registry
<i>i</i> TEST, Corri	Difficult Airway Registry

WORKLIST – If desired you can use worklists. At this point in time DAS has chosen not to use worklists. All a worklist is, is a way to bookmark a patient case to a date in time e.g. a theatre list on the day that the procedure happened. Currently all you will see is a list of the last 10 patients you have last viewed and if you want a patient not on that list then go to the magnifying glass and search for the patient name or NHS/CHI number

TASKS – outstanding patient or clinical tasks

ADD PATIENT - click here to add a patient record

FIND PATIENT - click here to search for a patient record

REPORTS - clicking here will open the reporting dashboard

NOTICES - click here to view a list of any system notifications

You can return to the User Dashboard at any time by clicking the **Home Icon**

Adding a patient

You can create a new patient by pressing the **ADD PATIENT** link button or the 'plus' icon on your dashboard:

My Dashboard

The screenshot shows the 'My Dashboard' interface. On the left, there are three main sections: 'WORKLIST' with 1 item for 16 Sep 2019, 'TASKS' with 3 clinician and 5 patient tasks, and 'ADD PATIENT' (with a plus icon) and 'FIND PATIENT' (with a magnifying glass icon). On the right, there is a navigation bar with icons for home, list, add patient (highlighted with a blue arrow), search, bar chart, calendar, notification (17), settings, and help. Below the navigation bar is the 'IDENTIFIED PATIENT' section with an information icon and the text 'All patient detail can be recorded'. The form contains the following fields: 'Hospital Number' (empty), 'National Identifier' (NHS dropdown and empty), 'Title' (Miss), 'Forename' (Generic), 'Middle Name' (empty), and 'Surname' (Test). Below the form, a red message states 'THERE ARE NO EXISTING PATIENTS THAT MATCH THE DETAILS ABOVE'. At the bottom are 'Create a New Patient' and 'Cancel' buttons.

Fill in the basic relevant details and then select **Add Patient**

To reduce potential duplicate records the registry will automatically search to see if a patient with identical criteria already exists, if so you will be notified and will be able to add another pathway for this patient.

Adding a patient to a Pathway

When the patient record is saved you will see a screen prompting you to add the patient onto a pathway. You then have a choice to just add the pathway which will just return you to the home page or add and open the pathway, if you want to add clinical detail to the record there and then.

Select **Add Pathway** to add the pathway or **Add & Open Pathway** to open the Pathway Dashboard.

How to find a patient

You can find a patient by pressing the **FIND PATIENT** link button on the Dashboard:

My Dashboard

The screenshot displays the 'My Dashboard' interface. On the left, there are three main sections: 'WORKLIST' (1 ITEMS FOR 16 SEP 2019 - 16 SEP 2019), 'TASKS' (3 CLINICIAN 5 PATIENT), and two buttons: 'ADD PATIENT' (green with a plus icon) and 'FIND PATIENT' (grey with a magnifying glass icon). A blue arrow points to the 'FIND PATIENT' button. At the top right, a navigation bar contains icons for home, list, add, search, analytics, chat, notifications (17), settings, and help. A blue arrow points to the search icon. The main content area is titled 'IDENTIFIED PATIENT' and includes an information icon and the text 'All patient detail can be recorded'. Below this is a search form with the following fields: 'Hospital Number' (text input), 'National Identifier' (dropdown menu with 'NHS' selected and a text input), 'Title' (text input), 'Forename' (text input), 'Middle Name' (text input), and 'Surname' (text input).

Fill in the basic details and then select **Search Now**

Recording Clinical Data

When a patient has had a difficult airway episode, the clinica data needs to be input into the system. Select the patient from your recently viewed or search for the patient and click on their record and this will open their Pathway Dashboard.

If the patient is new to the registry there will be a Difficult Airway Episode form already on the dashboard for you to complete in red. If this is a subsequent episode select New Difficulty Airway “Episode” from the buttons across the top :

To talk about the patient process in more detail, contact Customer Support. Once you have been using the system a while, you may wish to have a look at reports that are available on the registry and at this point we suggest getting in touch with customer support for any help you might need with this.

Some standard reports are already available in the system and available from the bar chart option at the top.
